

DRINKING WATER SOLUTIONS

Your Partner in Cool.

**AQUA
COOLER**

The Aqua Cooler logo is positioned in the top left corner. It features the word "AQUA" in white, bold, sans-serif capital letters on a dark blue rectangular background. Below this, the word "COOLER" is written in black, bold, sans-serif capital letters on a white rectangular background. The entire logo is set against a background of dynamic, splashing blue water.

AQUA COOLER

Australia's leading
drinking water brand.

About Us

Aqua Cooler is a proudly Australian-owned and -operated drinking water solution company based in Brisbane, Queensland. We employ an experienced and committed team of technicians, sales and support staff servicing the Australian and New Zealand drinking water industry.

Rely on 50 years of history in the industry when you purchase from Aqua Cooler. No other Australian brand can compare to Aqua Cooler's quality, attention to detail and fit for purpose product range. Trust in the highest quality materials created by the most knowledgeable and experienced team in the industry.

Products

Aqua Cooler supplies an extensive range of water coolers, drinking fountains, under-bench and remote water systems and related parts and accessories for homes, offices, gyms, worksites and more.

Our Values

Our values are centred around loyalty, growth and integrity, built upon a foundation of consistent and devoted team work. We are a customer-first organisation who put customer satisfaction at the forefront of how we carry out business.

DRINKING FOUNTAINS

The M Series and WM Series drinking fountains are the iconic figureheads of the Aqua Cooler product line up. A favourite across a range of industries on account of their unmatched durability, reliability and performance. The stylish and unassuming design suits just about any location and the IP33 rating means it can be installed where other fountains can't.

M Series

Heavy-Duty Mains-Connected Drinking Fountains

The M Series is a sleek mains-connected water fountain with a heavy-duty build. The tank is made from industrial grade stainless steel ensuring that the fountain will effortlessly meet demand.

KEY FEATURES

- Industrial grade 304 stainless steel tank and robust construction
- Polished stainless steel top
- Front panel removes for ease of servicing
- Optional stainless steel cabinets
- Simple filter changes for filtered units
- Adjustable, tamper proof non-squirt bubbler and glass filler
- IP33 rating suitable for outdoor use (see page 7)

The M Series is designed with an easily removable front panel that gives instant access to all components and controls. Hassle-free filter changes and services can be undertaken without disconnecting the plumbing.

With fingerprint-proof coating on both stainless steel and powder coated options, this robust water dispenser fits perfectly to a multitude of places including offices, worksites and gyms.

Filtered models feature a compact and easy to replace filter that removes taste, odour and chlorine. The filter is a proprietary carbon-block filter of greater density with a 2 micron filtration pad to prevent carbon and sediment bypass. Water inlet connection is a 1/2" MBSP and drain is 40mm female PVC socket.

IP33
RATED

Model Selection Chart

	Yes	M2FSS	M3FSS	M11FSS
* Approximate figures only. All M3 and M11 models are supplied with fittings to temporarily remove bubbler for reinstallation at a later date. This will enable the drinking fountain to be used as a glass filler only unit.				

WM Series

Wall-Mounted Mains-Connected Drinking Fountains

Mounted on the wall and especially designed for areas where floor space is restricted. The WM Series can be mounted at any height, making it ideal for children or those in wheelchairs.

KEY FEATURES

- Industrial grade 304 stainless steel tank and robust construction
- Polished stainless steel top
- Front panel removes for ease of servicing
- Adjustable, tamper proof non-squirt bubbler and glass filler

The WM Series is designed with an easily removable front panel that gives instant access to all components and controls.

With fingerprint-proof coating powder coated enclosure, this robust water dispenser fits marvelously to a multitude of places including offices, worksites and gyms. Water inlet connection is a 1/2" MBSP and drain is 40mm female PVC socket. Connections are located on bottom of unit.

Model Selection Chart		
	Bubbler	Bubbler & Glass Filler
Powder-Coated	WM4	WM5
* Approximate figures only. A filter kit can be ordered to be mounted externally to the fountain if required. The WM5 model is supplied with fittings to temporarily remove bubbler for reinstallation at a later date. This will enable the drinking fountain to be used as a glass filler only unit.		

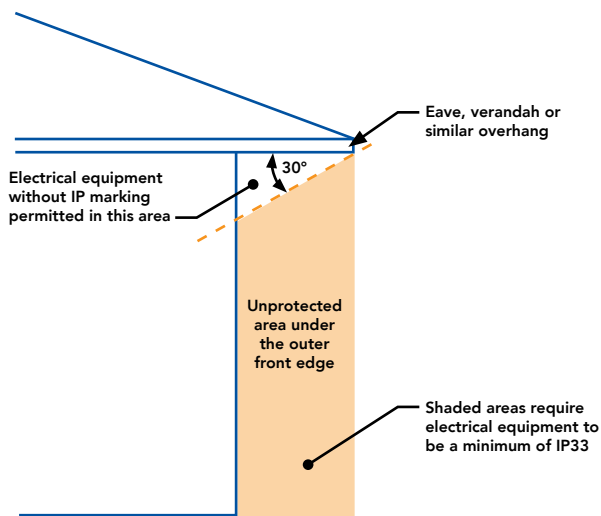

Ingress Protection

And what it means for water fountains in the construction industry

The Joint Australia/New Zealand Standard (AS/NZS 3000:2018) has been prepared by the "Joint Technical Committee EL-001, Wiring Rules" to provide uniform essential elements that constitute the minimum regulatory requirements for safe electrical installation.

AS/NZS 3000:2018 was published 26 June 2018, and indicated a six month transition period to be made available.

Section 4.1 of the Standard indicates that electrical accessories installed outside of a 30 degree arc from shelter shall have a minimum degree of Ingress Protection of IP33.

Area under an overhang requiring accessories to be a minimum of IP33 (side view)

This means that any water fountain with a lesser Ingress Protection rating installed without the shelter listed above is in breach of the Standard. Worksites risk being shut down for this breach of Standard.

Aqua Cooler's flagship product, the M Series Free Standing Drinking Fountain has achieved a rating of IP33*. Further, we offer a 12 month comprehensive warranty, regardless of being installed in uncovered conditions. Followed by a 24 month parts-only warranty.

(*M Series Ingress Protection tested by Ex Testing and Certification Pty Ltd, report # REP18122-01, dated 26/11/2018).

The M Series is a must for work sites that require cold water and don't have the luxury of undercover space.

PUBLIC DRINKING FOUNTAINS

Aqua Cooler is proud to partner with Urban+ to offer a range of outdoor drinking fountains. Designed to meet your requirements in the harshest of environments, these stylish fountains are perfect for use in parks and recreational areas.

Looking to save money and the environment? Aqua Cooler is proud to support Urban+ with their unique Restore + Refill program. Their re-crafted water fountain initiative is about creating the highest quality fountains that last for years and by offering a choice to customers to refurbish worn out Urban fountains, where possible, rather than buy new to stop fountains entering landfill and to save customers money. By encouraging this different thinking and change in behaviour Urban are striving to make a difference. Join them to Reduce, Restore, Reshape & Recycle.

Apollo 280

Outdoor Drinking Fountain with Bottle Filler

The Apollo 280 (A280) drinking fountain features a robust design with both bubbler and bottle refill outlets. With its custom designed Stainless Steel basin and feature front panel, sand/debris resistant activator button, watermark certification and AS1428 compliance options, the A280 is practical, stylish and will compliment any contemporary urban streetscape or park setting.

The A280 outdoor drinking fountain is the perfect choice for all your hydration needs and is the eco-friendly sustainable choice for now and the future.

KEY FEATURES

- Australian Made
- 316 Stainless Steel front panel, bubbler, basin and catchment tray (optional)
- Strong 8mm mild steel construction
- Easy water activation system
- Unique designed sand/debris resistant activator button
- Bottle Refill outlet as standard
- Disabled accessible (complies with AS1428 with longer basin and reduced height options)
- Vandal resistant
- Easy installation fixings and easy access for maintenance
- Customisable with many options
- Powder coated in Premium Dulux Steel shield Coating finish
- Full parts and technical back up service

Optional Extras

- Tap and dog bowl
- Tap or maintenance tap available
- Catchment tray
- Longer basin for AS1428 compliance
- Complete Stainless Steel model available
- Water filter
- Logo, motif or plaque
- Side protection panels

BF200 Refill Station

The BF200 water bottle refill fountain is ideal for today, as we become more conscious of environmental impacts of plastics. Made from heavy duty steel, the BF200 has Watermark Certification and gives its user practical access to easily refill their drink bottle. Easy, convenient and with an optional filter, the BF200 helps to reduce the need for single use plastic bottles and promotes health and wellbeing.

The BF200 Bottle refill station is the perfect choice for all your hydration needs and is the eco-friendly sustainable choice for now and the future.

KEY FEATURES

- Australian Made
- 316 Stainless Steel Panel fixings and Catchment tray (optional)

WATER COOLERS

Thousands of customers rely on the Aqua Cooler brand when it comes to supplying cold, filtered water to their waiting rooms, lunch rooms, homes, gyms, schools and offices. That's because Aqua Cooler water coolers offer incredible quality and value. Stylish, modern designs coupled with the reliability that comes with all Aqua Cooler products make them the perfect choice for your drinking water needs.

Odyssey Series

Bottled Water Coolers

The Odyssey Series offers unrivalled value in bottled ambient and cold drinking water dispensers. The modern cooler is the perfect unit for family homes, renters and small-offices all year round.

Bottled

Ambient/Cold

2.5
L/h (Cold)

The Odyssey Series is a free-standing unit available in ambient and cold configuration. The series has a 2.5 L tank and is an excellent choice for any application, dispensing 2.5 L of cold water per hour.

The cooler is created from high quality materials including food-grade and stainless-steel water contact tubes. The durable plastic, coupled with steel side panels for strength makes this unit perfect for home and small office use.

The Odyssey Series is covered with a twelve month standard warranty and additional twenty-four month refrigeration system coverage. A full range of replacement parts are available to keep the unit in operation for longer.

KEY FEATURES

- Stylish front facade made from high quality durable plastic, coupled with steel side panels for strength
- Easy-to-use taps, only one hand required
- Food-grade, stainless steel water contact tubes
- Durable polypropylene, self-closing taps
- Easy-to-clean, removable drip tray
- 12 month standard warranty and additional 24 month refrigeration system coverage
- Full range of replacement parts

Maximus Series

Mains-Connected Water Coolers

Maximus is the largest capacity commercial water cooler range available on the Australian market. No other cooler in its class offers the same level of performance making Maximus the ideal choice for high-demand areas such as offices and work shops.

KEY FEATURES

- Highest capacity water cooler available in Australia
- Stainless steel side panels and corner pieces for heavier-duty applications
- Durable polypropylene, self-closing taps
- Food-grade, stainless steel water contact tubes
- Easy-to-clean, removable drip tray
- 12 month standard warranty and 36 month compressor warranty
- Full range of replacement parts

With an unprecedented 14 L tank, Maximus dispenses up to 6.5 L of cooled water per hour. Maximus is a free-standing unit available in a cook and cold or hot and cold configuration.

The powder-coat steel side panels and corner pieces make this unit perfect for heavy-duty applications such as workshops. Coupled with our twelve month standard warranty, additional twenty-four month refrigeration circuit warranty and full range of replacement parts, the Maximus is a powerhouse of water cooling.

REMOTE WATER SYSTEMS

These industrial grade water systems are used to remotely supply chilled drinking water to drinking troughs or other outlets as required. Aqua Cooler's range includes units capable of supplying between 30 and 120 L/h of chilled water, making them perfect for schools and workplaces.

Sonata Series

Sonata Series remote water cooling systems remotely supply chilled drinking water to a faucet or fountain. Available in two different configurations to suit your application, whether it be a school-yard bubbler or workshop fountain.

KEY FEATURES

- Two models available to suit a vareity of applications.
- Waterways are lead-free in materials and construction
- Constructed from heavy-duty galvanised steel
- High-efficiency cooling tank and coil
- Refrigerant R-134a for high ambient conditions

Sonata remote drinking water systems deliver either 30 or 75 L/h (model specific) of water at 10 °C cooled from 27 °C inlet water at 32 °C ambient. Pressure Regulating Valves are to be used with water pressures above 5 Bar.

Model Selection Chart						
Model	Rated Capacity	Compressor HP	Full Load Amps	Rated Watts	Cabinet Finish	Net Weight (Approx.)

WALL MOUNTED DRINKING TROUGHS

Aqua Cooler is proud to partner with 3monkeez, an Australian owned and operated company to offer a range of stainless steel drinking troughs perfect for use with our remote water systems.

Drinking Trough PWD

With outlet fittings configured to your requirements and a 60mm boxed splashback, this drinking trough is ideal for many applications, especially in an education setting.

The internal and external radius corners are designed for safety and easy cleaning. A 60mm cavity in the splashback allows for tapware to be installed with no rear wall penetrations and easy installation of tapware. This trough is perfect for use in Education, public amenities, factories and more.

KEY FEATURES

- Constructed from 1.2mm 304 grade satin stainless steel
- Left or right hand drain outlet available
- Available in 6 lengths as required, or ask us about custom jobs
- Radius external and internal corners for safety and easy cleaning
- 900mm, 1200mm, 1500mm, 1800mm, 2400mm and 3000mm available off the shelf
- Bubbler fittings include silicone mouthguard
- Choice of Lever handle (for young children) or push button dispensing on bubbler and bottle filler
- Simply choose your length of trough, then add your outlets to suit. Mix and match to best meet your needs
- Outlets are available pre plumbed or just on a supply basis for DIY installs.

Filters

2 Micron Water Filter

The Aqua Cooler 2 Micron Water Filter is our most popular filter. This Watermark approved filter reduces 99% of Chlorine, Taste and Odour found in standard tap water.

The filter is self housed and only requires a head (found here) in order to be attached to a 1/4" tube.

The Z-8110 should be replaced every 6 months and has a max pressure rate of 875kPa and a max flow rate of 3.5LPM.

2 Micron Water Filter

Z-8110

Green Filter - Carbon

Activated carbon block filter from coconut shell charcoal. Removes Chlorine, Taste & Odour (CTO) and fine particulates from cold water.

Capacity: 3800 Litres.

Green Filter - Carbon GFRP-C

Mini Cooler Filter

Small Benchtop Mini Cooler Replacement Filter.

We recommend changing filters every two months, or if water flow reduces.
