

FREE STANDING RANGE

Models: AC-P8FSZEBFY Contactless, Refrigerated

The Bottle Filling Station is perfect for those high traffic areas. With a contactless, touch-free activation - there are no fears of cross-contamination.

Designed for urban settings, the sloped top prevents trash being placed on the unit. Additionally, the powder-coat steel finish is highly-durable. This unit can be installed right against the wall to save-space.

The unit is easily serviceable with a top and bottom door for quick access to the filters, electronics and the chiller.

The Bottle Filling Station is available with custom colours or wrapping.

Chilled and Non-chilled models are available both with or without Quasar; our UVC LED that kills 99.99% of bacteria at the point of dispense.
